

SHORT-BREAK PACKAGES – ex Windhoek.

Short holidays are an easy, exciting and trouble-free way of filling extra days prior or after a tour, as an extension to a neighbouring country, when time is of essence or when guests simply want to experience the splendour of one specific area either alone, or in the company of friends and family. Guests will be picked up at their accommodation of choice and dropped off at their desired destination, thereby forfeiting the need to hire a vehicle, book into different accommodations or decide which activities they should choose.

We have created a selection of different short packages that will cater for every need and standard, concentrating on major attractions in Namibia. Apart from fixed activities included in the packages, guests are given a wide option of other activities they can make use of when at their desired location.
