Private Scheduled Tours

All scheduled escorted tours are offered on a private basis as well. The same rate per passenger will apply as soon as the group consists of six or more passengers.

Only one of the benefits of privately guided tours is the substantial value that we can offer by applying our buying power to the benefit of the exclusive private escorted tour passenger.

All scheduled rates are calculated and published up front and are valid for the entire product year; this ensures price consistency throughout the year. We are able to cater for specific languages, as our private escorted tour programs are guaranteed in English and German; other language guides will be arranged on request. This, in conjunction with our guides' extensive knowledge, ensures value for money, peace of mind and the most unconventional program possible.

As the touring services are booked on a private basis, any itinerary and accommodation changes may be available to suit clients' 'individual' requests and will be customised accordingly at an additional cost. We believe that this innovative supplement to our private escorted touring product offering reflects our vision of exacting service, ease of booking, competitive rates and with the added value of ensuring a private, intimate and personal lifetime experience for many guests to enjoy.

PREMIUM TOURS

Style, comfort and exclusivity. Small, exclusive lodges with dynamic, customer care focused staff, passionate guides with a yearning to impart knowledge on wildlife, culture, history or plants and itineraries with exclusive value adds and insight into little known highlights are some of the small factors that make the premium safari an unforgettable experience.

Of all the gemstones in the world, the diamond is the most spectacular, and when it is set in jewellery, it is not done in simple base metals, but in settings using precious metals that best showcase its brilliance. Namibia is awesome in its natural, wild, pristine beauty. But the setting can be embellished to add to the splendour. In preparing its premium offering, Sense of Africa has aspired to provide an experience that best offsets the rugged, harsh, yet soulful and liberating experience that is Namibia.

Imagine viewing the deep red glow of a sunset over Damaraland from the natural terrace of a rock mountain as you sip sparkling wine; the deep satisfaction of a champagne breakfast following a lazy balloon flight over the expanse of the Namib Desert; or a leisurely cognac by firelight as you discuss the thrills of the rhino tracking earlier in the day. Namibia is majestic in the abundance of soulful and satisfying experiences found here. Our premium offering unfolds the experience in its most glorious setting.

Our philosophy is simple. Pure wilderness should not be restrained, but should be enjoyed completely.

FLYING SAFARIS: Aiming to satisfy the needs of guests who are pressed for time or those who wish to see Namibia from a bird's eye perspective. Namibia, blessed with a wealth of geological phenomena, provides a spectacular view from above for the discerning traveller.
